Loc	ality		Montgomery County, Virginia						
	Χ	New Buri	New Burn Building			Renovation Project		Repair Project	
Qua	arter	Report							
Start Date of Project 25-Feb-1									

Timeline for project: What has been accomplished to date / since last status report?

We are currently reviewing the preliminary blueprints for the project, which were provided by our engineer
Wiley/Wilson. Our building official is currently ensuring the plans are to codeand satisfys the requirements
of the county. This will allow for a smoother and faster issuance of the building permit.
,
We have conducted a successful fund raiser for the project to provide supplemental funds for development
our local Lincoln Dealer provided a drive event which generated \$5,620, the dealer then gave the project
an additional \$2,800. These fudns are ermarked for the groundbreaking and grand opening as well as
for use in the project to ensure completion. A second drive event is planned for May 2016.
To the control of the
A committee has been established to develop criteria and useage of the facilit once complete to ensure
all parties have equal access and maximize the use of the facility.
an parties have equal access and maximize the acc of the facility.
Final Blueprints have been rpomise by January 28, 2016 from Wiley/Wilson
Tillal Blueprins have been fpointse by January 20, 2010 from Wiley/Wilson
I will ask the DFP Board to extend the deadline for the building permit at the February meeting.
I will ask the DFF board to extend the deadline for the building permit at the February meeting.
